Forecast For East Midlands
Issued by Met Office Exeter
at 1600 on Saturday 09 Jan 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Widespread sharp frost, ice and freezing fog tonight.

This Evening and Tonight:
Clear spells for much of tonight, with light winds and a widespread sharp frost, along with patchy freezing fog, and a risk of ice on untreated surfaces. Cloud will increase later in the night, especially across the north. Minimum temperature -4 deg C (25 deg F).

Sunday:
A cloudier day for most places, but still with some bright or sunny spells once initial patchy freezing fog clears. Feeling cold and becoming slightly breezier later. Maximum temperature 6 deg C (43 deg F).

Outlook for Monday to Wednesday:
Monday largely cloudy and becoming breezy, with outbreaks of rain arriving, especially across the Peak District. Tuesday, mainly dry, bright and cold before rain arrives during Wednesday. Becoming milder later.
